PROFESSIONAL SUMMARY

Result-driven Full-Stack Web Developer and high-achieving BCA Graduate (8.9 CGPA) with practical engineering experience architecting, testing, and deploying 3 live web applications. Strong foundational command over object-oriented languages, terminal-driven Git workflows, and automated cloud deployment pipelines. Incoming MCA candidate eager to leverage agile full- stack development capabilities to drive impact as an engineering intern at IBM.

TECHNICAL SKILLS

Programming Languages: Java, Python, PHP, JavaScript (ES6+), HTML5, CSS3

Tools & IDEs: VS Code, Git CLI / Terminal, Android Studio (Learning)

Cloud & DevOps: Netlify, Cloudflare, GitHub CI/CD Automation pipelines

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Web Architectures, Database Management (SQL)

TECHNICAL PROJECTS

Freelance Full-Stack Web Developer | Self-Employed / Remote

- **Production Deployments:** Engineered, optimized, and pushed 15+ distinct, fully responsive web applications leveraging HTML5, CSS3, JavaScript, PHP, Java, and Python.
- **Terminal-Driven Workflow:** Handled complete version control lifecycles locally inside VS Code, executing direct operations via the Git CLI/Terminal to guarantee clean branch and commit structures.
- **Automated CI/CD Pipelines:** Architected and integrated automated continuous deployment structures syncing GitHub pipelines directly to Netlify and Cloudflare, dropping deployment overhead down to zero.
- **Performance Optimization:** Leveraged Cloudflare edge networking and optimized server-side scripts to significantly minimize load times and improve web layout scalability.

Enterprise Data & Web Automation System | Personal Portfolio Project

- Built a robust application utilizing Java and Python to handle back-end compute logic, internal APIs, and structured database operations.
 - Developed dynamic, responsive UI workflows using modern JavaScript to ensure lightning-fast rendering metrics.
 - Managed asynchronous version flows via Git terminal, resolving conflicts systematically to maintain high code repository health.

EDUCATION

Master of Computer Applications (MCA) | Upcoming Student — Batch Commencing December 2026

Bachelor of Computer Applications (BCA) | Graduation: 2026

Academic Performance: **8.9 CGPA** (Top Tier of Batch)
